

# Tradermade Quick Start Guide

**Chart** : *Create charts; adjust Interval/Timeframe, Tools & Chart Options*

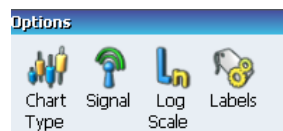

Click 'New' to create new chart on your desktop.

Choose your Timeframe by clicking 'Quick Timeframe' and selecting from the drop down menu.

The Tools area allows you to apply 'Value Window', 'Display Grid', 'Zoom Slide', 'Level Mode', 'Volume Window' and 'Overlays'.

Amend your 'Chart Type' to bar, candle, line, ROC and stepped. Choose your 'Signal': high, low, open and close, 'Log Scale' and 'LRP/Label Transparency'.

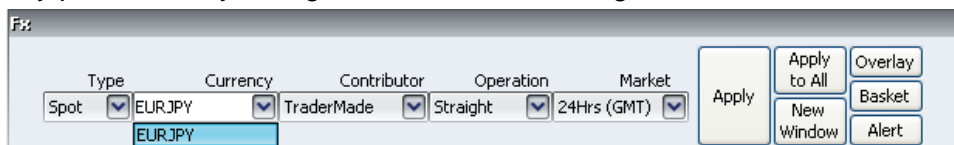

**Markets** : *Choose your markets: FX, Commodities, Equities, Interest Rates*

Click on your 'Market': FX, Commodities, Equities or Interest Rates.

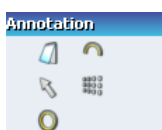

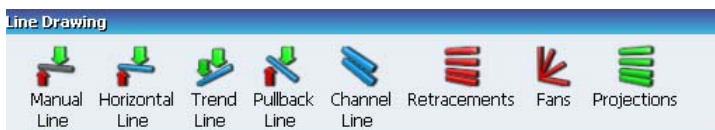

For 'FX': enter the currency pair manually, using market convention. E.g. 'EURJPY'. Click 'Apply' or choose to apply as an 'Overlay'.

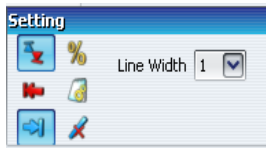

**TA Tools** : *Apply TA Lines, Annotation, Auto Lines and Customise Settings*

Click and apply to chart the required TA Line:  
manual/horizontal/trend/pullback/channel / retracement/fan/projection/support and resistance lines.

To add text click  or choose arrows, circles or cycles.

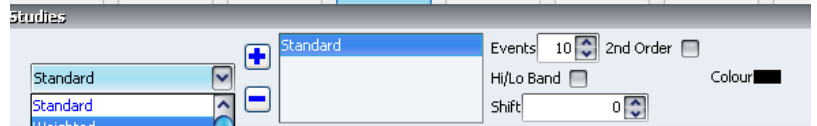

Add speedlines, calculated fan, calculated retracements, mid line, last mean square line and median lines.

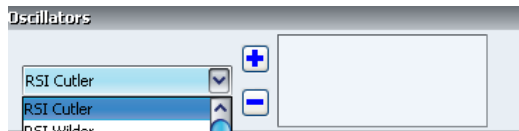

Snap your lines to the high and low by clicking , change the default ratios  manipulate lines left or right, change line width/fonts. Tools available are context sensitive and will change according to your needs.

**Studies** : *Apply or remove studies*

Apply different studies, change study parameters in real-time, shift studies or alter colours.

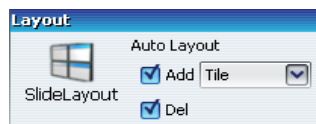

**Oscillators** : *Choose from over 20 different oscillators*

Select your oscillator, amend parameters, alter overbought/oversold levels, apply histograms or change colours.

**Desktop Actions** : *Customise your layout, perform chart & desktop actions*

Choose the layout that best suits your requirement. Create new desktops, rename, amend desktop order, delete & saved desktops.

Change the name of the chart or desktop.

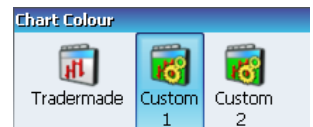

**Settings** : *Display Settings, Chart Colour.*

Click Hide Ribbon to hide the ribbon displayed at the top of the application or click  from the quick links bar on the left hand side of the application to view the ribbon again.

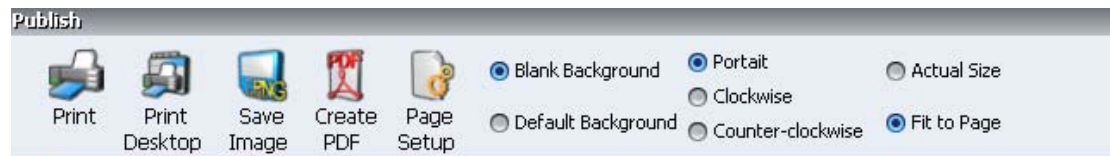

Change the chart colours or create your own customised schemes.

---

**Publish**: *Print & copy options for chart publication*

Print the desktop/chart, save chart images, amend print background or rotate.

---

**\*\*\*Quick Links Bar\*\*\***: Highly utilised functions are available on the Quick Links bar visible down the left hand side of the screen, these include Create chart, created desktop, save & duplicate chart. Hover over the button for functionality.
